Model Toy Making By Ron Clemmens

Ron Clemmens was a member of our club when Linda Murphy was president and has again become a member!

Ron buys wooden model vehicles and adds details. He finds most of his models in *Toys and Joys* catalog.

He then will do research on the vehicle. For example, when he carved a bulldozer, Ron went to a construction site and looked at a full sized bulldozer from every angle. He even climbed into the driver's seat! He then

went home and hand carved the tracks, used toothpicks to look like the actual bolts on the tractor, and added a pin to represent the hydraulic dipstick!

Ron also shared other carvings with us including a blue fish ribbon carving, a mule, cat in the hat, a buzzard, a greyhound, a horse and a snake walking stick.

Ron also helps to organize a group to carve toys to donate to Toys For Tots. Last year his Howard County Woodworkers Guild donated 175 toys!
